

## WINDCHART >>

This windchart is just a very rough guide to show which size is suitable for the different wind speed.

We recommend you learn to kite with a qualified instructor. Choose a smaller size kite if you are unsure of the wind speed. Always find a clear open area free of all obstacles with a clear laminar airflow.

	<b>BEGINNERS</b> SHOULD START KITING IN LIGHT WINDS ONLY
	<b>ADVANCED</b> RIDERS ARE WELL POWERED UP
	<b>EXPERTS</b> ARE PERFECTLY POWERED
	<b>EXPERTS</b> FULLY POWERED BUT STILL GRINNING
	<b>HEAVIER PROFESSIONALS</b> ONLY

## FIXED BRIDLE FOILS >>
